

3. The Reason for Establishing Pauline Truth (Original Gospel) Theological Seminary

1. The Historical Background: The Collapse of Theology and the Division of the Church

Today, Christianity, though called to be one under the biblical foundation of *“one God, one Lord, one faith, one Spirit, and one baptism”* (Ephesians 4:4–6), has been fragmented into countless denominations and sects, walking the path of mutual conflict and division.

The root cause of this lies in the distortion of theology—the very skeleton of the Church—and in the dilution or corruption of the orthodox gospel once proclaimed by the Apostle Paul.

2. The Proliferation of “Other Gospels” and God’s Warning

The Scripture clearly warns, *“If anyone preaches a gospel contrary to the one we preached to you, let him be accursed”*(Galatians 1:6–8).

However, in modern Christianity, numerous “other gospels” abound, leading believers into confusion and seriously undermining the holiness and divine mission of the Church.

3. Paul’s Gospel: The True Model of Christian Theology

Paul distinguished the gospel of Jesus Christ from Jewish legalism and Greek philosophical syncretism, establishing it as a pure and original (primary) gospel.

This gospel is not merely the truth of salvation but also the foundation that properly establishes the structure of the Church, the lifestyle of the saints, and the order of the community.

Paul described the Church as *“the body of Christ”*; thus, his theology forms the very framework of Christ’s Church and serves as an indispensable model for every believer’s faith and life.

4. The AI Era: A Providential Opportunity to Restore Pauline Truth

Today, we stand at an extraordinary moment in history where, through the tool of Artificial Intelligence (AI), we are given new opportunities for the systematization, translation, education, and worldwide dissemination of biblical truth.

AI, when used as an instrument of the Holy Spirit, can aid in the unity of the Church and the establishment of sound theology, contributing to the restoration of one gospel and one theology for the global Church.

5. The Purpose of Founding the Seminary

- 1) To establish a biblical theology modeled after the original gospel preached by the Apostle Paul.
 - 2) To promote theological unity that transcends denominational boundaries, thereby building one united Church.
 - 3) To restore the example of the Early Church, enabling each home to become a seminary and each believer to stand as a missionary of the gospel.

Conclusion

Now is the time to establish a new seminary founded upon the Pauline Truth—the pure and orthodox gospel.

This is not merely the founding of another educational institution but a spiritual movement to rebuild the broken framework of the Church and theology, and to renew the Church as the true body of Christ.

Together with the help of the Holy Spirit and the use of AI, we must restore the gospel essence of Pauline theology to all Christians living in this age.

Let us all be united in the gospel proclaimed by Paul, who imitated Christ, and let our faith be built upon the restored Church and theology of Pauline Truth (the Orthodox Gospel).

Thank you.
